

Velocity Activity Potential Solution

Activity Solution:

1. What is the team's velocity as a result of this Sprint results?	10 Story Points
2. What should the team forecast for the next Sprint?	10 Story Points

Notes:

1. Velocity relies on completing Story Points in the original plan. In this case, the answer is 10 Story Points.
2. Always use the prior Sprint velocity to forecast velocity for the next Sprint. In this case, use 10 Story Points.
